

INDUSTRIAL PAIL WASHER PW SERIES

Industrial Pail Washer is designed to wash the interior and the exterior of open pails ranging from ¼ to 5 gallons in size or other types of containers. An optional potholder can be used to hold smaller containers in place during washing.

The PW is fully pneumatic, features all explosion proof components, and can be located in Class I, Division I hazardous areas.

These solvent cleaners are made of industrial quality painted steel for durable use and trouble-free. The PW can also be designed with stainless steel or for water-based washing with heating elements.

MARKETS SERVED

- General manufacturing
- Aerospace and aviation
- Automotive
- Paint shop
- Wood finishing

AVAILABLE MODELS

PW4 4-pail capacity	PW8 8-pail capacity	PW12 12-pail capacity
