

AIR-OPERATED DOUBLE DIAPHRAGM PUMPS

1/4" Positive Displacement Double Diaphragm Pump.

This 1/4" positive displacement diaphragm pump is equipped with pre-formed PTFE and Santoprene membranes to improve performance; it is available in polypropylene, acetal that can be grounded and PVDF.

The Husky 205 air-operated diaphragm pump features spring check valves for superior priming in any mounting configuration.

SPECIFICATIONS

Description	Data
Maximum fluid flow	5.0 gpm
Maximum Fluid Discharge Pressure	100 psi
Maximum size pumpable solids	0,06 po
Fluid displacement per cycle	0,012 g

BENEFITS

- True-formed PTFE and Santoprene diaphragms for enhanced performance
- Spring loaded checks allow the diaphragm pump to work in any orientation
- Inlet and Outlet are interchangeable
- Remote control option using an external controller
