Double diaphragm pump 10.5 gal/min capacity		

## PW2 TO PW12 MODELS

Heavy-Duty PW2 to PW12 solvent washers are made of industrial quality painted steel for durable use and trouble-free. An optional stainless steel finish is available to resist rusting and solvent spills.

Optional Clean Rinse allows you to obtain a better cleaning quality by finishing the cleaning cycle with a separate clean solvent drum.

It is recommended to combine this washer with an ISTpure Solvent Recycler to reduce the operation costs and toxic wastes generated by the wash cycles.

Shown: PW4

## AVAILABLE OPTIONS

### Support

Maintains smaller containers in place

### Stainless Steel Finish

Resists solvent spills and rusting

### Clean Rinse Cycle

Optimize cleaning performance with clean rinse option

### Diaphragm Pump

Powered by high performance double diaphragm pump(s)

### Spray Nozzles

Simultaneously cleans inner and outer surfaces

### High Level Sensor

Optional high level sensor switch turns solvent supply off if drain is clogged
